May Yet Name a Commission-Fight for St. Louis Appropriation-Committees Meet and Map Out Some Plans for Work.

The Legislature did not do a great deal of business yesterday in general session, though some of the committee matters weer of considerable moment.

Mr. Clarke, of Surry, offered in the House a plan for grouping the terms of the new circuit judges, and in the afteron it was considered by the Coursts of Justice Committee. The plan offered by Mr. Clarke was not adopted, but one similar was offered by Mr. Davis, of Peters-burg, and approved. It provides for placing the mmbers of the Tewtny-fourth Circuit in four envelopes—six in each-separating them so that the circuits repbe adjacent to one another. The envelopes will be scaled ad placed in a hat and drawn by the Speaker and Lieutenant Governor. On the first envelope drawn will be written "two years," the next "four," and the next "six," and the last "eight." The scheme is thought to be a perfectly fair one, and it is said it is likely to give satisfaction.

Colonel A.M. Bowman, of Salem, the leader of the St. Louis Exposition Iorces in the House of Delegates, is expected to arrive here to-day, and will persent his bill appropriating \$50,000 for a Virginia exhibit at the great show. Colonel Bowman is a leading member of the House Finance Committee and will press the matter vigorously, though evidently it will be vigorously fought.

Mr. Allen V. Cockrell, of Washington, who is the Eastern representative of the

hitherto opposed the commission idea are w sald to favor it.

Chairman Mollwaine called a meeting of the Senate Committee on Courts of Justice vestorday immediately after the adjournment of the Senate. Mr. McIlwaine called attention to the fact that several articles of the Constitution had been referred to that comittee for laws to be framed in accordance therewith. He asked for suggestions from members as to the left plan of precedure. Mr. Opie said he thought it would be best to divide the work among small committees. Several others suggested schemes. Finally it was decedded to have the committee meet again on Friday, when each member was expected to report some specific plan by which the work could be done most expeditiously. done most expeditiously.

The House Committee on General Laws met yesterday and partially organized for the work assigned them under the joint resolution recently passed by the General Assembly, Chairman Hunley and Mr. Edwards were appointed a sub-committee to appear before the Committee on Roads and Internal Navigation to request the appointment of a similar committee from that body to confer in regard to what portions of Article 12, of the new Constitution in regard to Corporations shall be especially considered by each of said standing committees.

The committee ther. preceded to confider section 4 and 5 in regard to the legislative and Executive Departments. They adjourned to meet again to-morrow morning to further consider the parcelling out of the work to sub-committees and utherwise.

The Committee on Agriculture and Mining of the House has fixed next Monday at 4 P. M., as the time for hear-ing argument on the Folkes bill, de-signed to prevent the running of commissaries and stores in connection with mines and manufactories. The bill will be bitterly fought by the corporations.

The House Committee on Privileges and Elections will meet at 10 o'clock this morning for the purpose of mapping out lening to subcommittees the sec tions of the Constitution referred to it.

Chairman Barksdale has called a meeting of the Senate Committee on General Laws for this morning at 10 o'clock. This body will take up those matters relating to the revision of the laws which were referred to it.

Since it was announced in The Times Bunday morning that City Attorney Pollard has rendered an opinion which will result in the retirement of Councilman J. M. Blanks, of Lee Ward, and Alderman Fill Seay, of Clay Ward, local politicians have been active in interests of certain gentlemen who, it is said, are anxious to succeed to these two vacancies.

Mr. Claude Batkins, a well known contractor, of Lee Ward, has been prominently mentioned to succeed Mr. Blanks, while both Councilmen Miner and Bottom, of Clay Ward, have been spoken of for the chair in the Aldermanic Board, which Mr. Seay will probably be forced to relinquish.

GOMPERS AND SHAFFER

They Are to Be Investigated by Federaation of Labor.

(By Associated Press.)

NEW ORLEANS, LA., Nov. 17 .- Either Theodore Shaffer, president of the Amalgamated Association of Iron, Steel and Tin Workers, or Samuel Gompers, president of the American Federation of Labor,

seems destined to pass under a cloud. It is a fight to a finish, and at present favor Gomners. The troubl which suddenly came to a point in the convention of the Federation of Labor was an echo of the strike against the United States Steel Corporation, which was fought and lost last year, by the Amalgamated Association, under the leadership of President Shaffer.

After his organization had been defeated President Shaffer did not hesitate to utter serious charges against Presi-

feated President Shaffer did not hesitate to utter serious charges against President Gompers, as well as against John Mitchell, president of the Mine Workers, and Frank Sargent, president of the Rallway Trainmen. He asserted that the organizations over which these men presided, after listening to the advice of the leaders, refused to lend a hand to the strikers and even fought against them in the dark. The charges were levelled against Mr. Gompers last fall made a reply denying he had acted in bad faith toward the Amalgamated Association. There the matter slumbered until this morning when Delegate J. P. Sheridan, of the Amalgamated Association, of the Amalgamated Association, a colleague of Mr. Shaffer, arose and asked for an investigation against Mr. Gompers.

Objections were offered to the admission of the resolutions, but both President Gompers and President Shaffer demanded the fullest investigation of the charges. It was finally decided by the convention to name a special investigation committee of five members. Mr. Gompers to name two, Mr. Shaffer two, and these four to name a fifth. Mr. Gompers named as his representatives John F. Moffat, of the United Hatters, and Edgar A. Agard, of the Glass Bottle Blowers' Association. Mr. Shaffer named J. M. Slayton, of the Carpenters and Johners, and W. H. Haskins, of the United Mine Workers of Ohio.

The special committee did not enter upon its work until evening. It was announced that its work would not be finished during the night and probably not until late on Tuesday.
